

# 50–75 MHz Precision Metrology MCUs with Segment LCDs Based on Arm<sup>®</sup> Cortex<sup>®</sup>-M0+

## KM3x

Last Updated: Dec 14, 2023

The KM3x MCU family enables single-chip one-, two- and three-phase electricity meters, as well as flow meters and other precision measurement applications. This family of MCUs:

- Provides security with active and passive tamper detection with time stamping
- Supports high-precision internal voltage reference with low temperature drift
- Features a comprehensive enablement suite including reference designs
